

The PACT

Vision: A PACT that creates solidarity across youth organizations to work strategically and collaboratively in the HIV response towards ensuring the health, well-being and human rights of all young people.

The PACT for social transformation is a collaboration framework agreed to by youth-led and youth serving organizations within the AIDS movement. It outlines five key themes and several sub-priorities for advancing the youth agenda in the context of HIV. The PACT was formed at the *Youth and UNAIDS: a PACT for Social Transformation* meeting in Hammamet, Tunisia from 20-22 May 2013. The meeting created a space for participating organizations to set the strategic direction for the youth AIDS movement. It brought together 15 youth organizations who were nominated by civil society, as well as the members of the UNAIDS Youth Advisory Forum.

The PACT is open to new member organizations that fit six criteria including being youth-led or youth serving, having HIV as focus or major programmatic area, and working with young people living with HIV and young people belonging to key populations at higher risk.

If you are interested in finding out more about the PACT or how your organization can join, please contact Caitlin Chandler, PACT coordinator, at caitlin.chandler@gmail.com.
